

Thiago C.

SENIOR FRONT-END DEVELOPER

WHO I AM

I'm a 23-year-old artist who found my calling in front-end development. Since then, coding has become my art and passion, and I pay great attention to details and finesse. I am extroverted, creative, and communicative, and love to learn. I have hyperfocus. Communication, Adaptability, and discipline.

HARD SKILLS

Front-end Development Expertise: Over 5 years of experience with React, Angular, Next.js, JavaScript, ECMAScript, API integration, WebSockets and TypeScript, building modern, high-performance web applications. Skilled in Styled Components, Tailwind, Chakra, and Figma to create responsive and elegant designs, with state management using Zustand. Always focused on optimization and user experience.

CI/CD & Version Control: Automated CI/CD pipelines using GitHub Actions, optimizing deployments and tests with Jest and React Testing Library. Proficient in version control with Git and GitHub, ensuring efficient team collaboration.

API Integration & Back-end Collaboration: Expertise in integrating REST APIs with Axios and Fetch. Experience working with Node.js, Nest.js, Express, GraphQL, MongoDB, and PostgreSQL, and familiarity with Quarkus and Spring Boot for full-stack integration.

Authentication & Security: Implemented secure authentication and authorization using OAuth, OIDC, and httpasswd, ensuring robust security for web applications.

Software Testing & Quality Assurance: Strong experience in unit and integration testing with Jest and React Testing Library, ensuring high code coverage and component reliability.

KEY EXPERIENCES

Wansoft (1 year and 4 months): Worked as a mid-level full-stack developer using Node.js on the back end, with a strong focus on performance and clean code. My time there was brief, as I was invited to join the team at 360 ERP.

360 ERP (1 year and 2 months): Mid-level front-end developer responsible for building robust and efficient applications.

BRB (8 months): Developed the front end of a platform for beauty salons, with a focus on speed, usability, and customer experience.

Freelance Front-End Developer (2020 – Present): Building amazing applications with a constant focus on refinement, continuous improvement, and delivering high-quality final products. I work with a variety of modern stacks and a strong commitment to user experience.

KEY CERTIFICATIONS

JS and TS basic to advanced- [146 hours]

React Complete- [36 hours]

Mern Full-Stack Guide - [20 hours]

Full-stack Dev Bootcamp - [66 hours]

UI/UX Advanced - origamid - [15 hours]

LANGUAGES

English - Advanced
